Alternative AOAC OMA rapid methods for the detection of *L. monocytogene* listed in section F2 can be used to confirm pure culture.

Depending on the kit, isolates may be identified in pure culture ...

MICROBIAL TESTING PROCEDURES

Direct Plating Enumeration Methods •Product is homogenized in diluent and small volume is directly dispensed onto agar media (i.e., sometimes there is a 1-2 h “resuscitation” step, but enrichment is never used prior to plating)

•Advantages: -Allows easy inexpensive quantitative analysis •Disadvantages:

[Babcock test - Wikipedia](#)

Multiple methods have been developed for cholesterol levels determination. Those methods can be divided into three major categories: 1) classical chemical methods based on the Abell-Kendall protocol, 2) fluorometric and colorimetric enzymatic assays that are commonly employed for assay kits and automated plate readers, and 3) analytical instrumental approaches such as gas and liquid ...

Sodium Fluoride is an inorganic salt of fluoride used topically or in municipal water fluoridation systems to prevent dental caries. Fluoride appears to bind to calcium ions in the hydroxyapatite of surface tooth enamel, preventing corrosion of tooth enamel by acids. This agent may also inhibit acid production by commensal oral bacteria. (NCI04)

2.3. Determination of Water-Soluble Vitamins

2.3.1. Okra Vitamin B Analyses. The vitamin B group was extracted according to a previously described method [].In brief, okra powder (2 g) was placed in 25 mL of H₂SO₄ (0.1 N) solution and incubated for 30 min at 121°C. Then, the contents were cooled and adjusted to pH 4.5 with 2.5 M sodium acetate, and 50 mg Takadiastase enzyme was added.

[CFR - Code of Federal Regulations Title 21](#)

Succinic acid is an alpha,omega-dicarboxylic acid resulting from the formal oxidation of each of the terminal methyl groups of butane to the corresponding carboxy group. It is an intermediate metabolite in the citric acid cycle. It has a role as a nutraceutical, a radiation protective agent, an anti-ulcer drug, a micronutrient and a fundamental metabolite.
